# INFORMATION THAT WILL HELP YOU TO MAKE OUT YOUR ORDER EASILY AND ACCURATELY

## Goods Temporarily Out of Stock

Should any of the articles you order be temporarily out of stock we will take the liberty of sending similar goods of equal or better value in their place. Let it be understood, however, that in the event of these goods not meeting with your entire satisfaction you have the privilege of returning same, stating whether you wish to wait for the catalogued line originally asked for or the money refunded.

## Orders Delayed in Transit

**First.**—Allow sufficient time for shipment to arrive.

**Second.**—Enquire at **Express, Freight or Post Office.**

**Third.—Make sure,** in case of damage or shortages, you receive a **Bad Order Receipt** from railway company. Send receipt to us. Full particulars of your order are requested. For these kindly use separate writing paper.

**NOTE.**—Do not write on Bad Order Receipt.

**Owing to the present condition of the railroad transportation, customers should allow extra time for shipments made by freight.**

## Deposit Accounts

**A Deposit Account is convenient and profitable.**

Open an account by depositing a sum of money and mailing us a cheque, and we give you a "D.A." number.

When ordering either through the Catalogue or Store, you simply mention this number and the amount of your purchases; this is then charged to your account.

Five per cent. per annum is allowed on credit balances, on amounts up to $500; and a statement of account is rendered monthly.

This service has become exceedingly popular, as it saves trouble and expense in purchasing money or express orders, and the high rate of interest assures a profitable investment.

## Club Orders

If you cannot make up an order to take advantage of Our $10.00 Free Delivery Offer, invite one or more friends to order with you—goods to be shipped to one address, each customer's order to be on a separate sheet, giving name and Post Office Address or Rural Route. It is necessary that each member's order is enclosed with your order. Any received separately will be treated as a new order, and, if under $10.00, shipped charges collect. The complete shipment will be shipped to you (unless otherwise notified on Bills), subject to our Free Delivery.

## Personal Service

Our Personal Service Department has a staff of trained shoppers who will furnish ideas on the latest **Fashions** and will forward prices and descriptions of seasonable wearing apparel. Suggestions and estimates in regard to **Furnishing a Room, House or Institution** will be promptly supplied, and every effort made to give the out-of-town shopper the same buying opportunities as customers coming to the store.

Whether purchases or ideas are desired there is absolutely no charge made by the Personal Service Dept.

### CHOOSING MADE EASY

"I'll try to make this Christmas tremendously successful," you've no doubt often remarked, but the weeks slip by like hours, and there are so many things to do.

You've often intended to give something unusual—gifts that are practical—gifts that will long be a pleasant reminder of your forethought. But they are so hard to find. It sets you thinking, "What shall I give?" This is the vital question that leads on to another, "Where shall I get it?"

You have formed a mental vision of your many past experiences—the hustle and bustle of the surging crowds, excited Christmas shoppers, inclement weather and other such obstacles that present themselves in rapid succession.

The "gift problem" and the "shopping problem" have long ceased to be problems when the aid of the "EATON Catalogue" is possible. Draw up your chair to the cosy fire, follow the avenues of attractive, practical gifts that are offered on every page, and the prices—they are the lowest which we think dependable merchandise can be offered at.

We have prepared a small list of really acceptable suggestions on this page under suitable headings.

Order from this big book to-day. You'll realize that this is the ideal way to shop—efficiently, systematically, economically, and for all-round satisfaction the best!

## HEATHERBLOOM TAFFETA

**56-538.** Heatherbloom Taffeta, a fine cotton material with a splendid silk lustre, is used in this **Petticoat**, which embodies many of the season's demands in style. The desired width is gained with puffings intersected by pin tucks, and finished with a wide accordeon pleated frill. **Lengths 36, 38, 40 and 42 inches. Colors Navy (as shown), Black, Grey or White.** Price..... **2.00**

## FINE SILKY FINISHED SATEEN

**56-536.** This **Petticoat** of silky-finished Sateen is fitted at the hips, and flares fashionably at the frill, flaunting the latest whim of the full skirt. Topping the wide flounce is a narrow puffing, while groups of tiny tucks and a side-pleated frill give a smart finish. **Lengths 36, 38, 40 and 42 inches. Colors Green (as shown), Black, Navy or Brown.** Price..... **1.00**

## SILK MOIRETTE

**56-541.** The reliable and satisfactory material, Silk Moirette, is of exceptionally good quality, and is well utilized in this **Petticoat.** An attractive design in stitching on the flaring flounce gives individuality, and forms a Van Dyke heading for the pleated frill at the foot. This skirt is well adapted, in both style and material, for wear with the new skirts. **Lengths 36, 38, 40 and 42 inches. Colors Purple (as shown), Black, Copenhagen Blue or Brown.** Price..... **3.00**

## RICH PAILLETTE SILK

**56-539.** This **Petticoat** of Paillette Silk of particularly fine quality follows the vogue for simplicity in design. The wide flounce features groups of pin tucks. Below each group the flare becomes more pronounced until it ripples prettily about the ankles. **Lengths 36, 38, 40 and 42 inches. Colors Mauve (as shown), Black, Copenhagen Blue, Rose and Green.** Price..... **2.75**

## BEAUTIFUL SHOT TAFFETA

**56-540.** This modish **Petticoat** of lovely Shot Taffeta Silk is smartness itself. Fitting neatly about the hips, it flares slightly to the knee, where it develops into a flounce characterized by small tucks and narrow puffings. **Lengths 36, 38, 40 and 42 inches. Colors Rose and Green (as shown), Green and Purple, Green and Copenhagen Blue or Royal and Black.** Price..... **2.95**

## A REMARKABLE OPPORTUNITY TO SECURE A REMARKABLE CHAIN BARGAIN

### EXCEPTIONAL VALUE IN AN ALL-WOOL SERGE SKIRT AT 2.95

A separate skirt whose style, material and price will be a source of pride to the wearer. Three reasons explain how it can be offered at this bargain price: First—Material was bought before the present rise in price of wool prevailed. Second—Made in our factory under the most modern, labor-saving conditions. Third—Priced at a very small profit from factory to wearer.

**56-428.** This **Natty, All-wool Serge Skirt** is designed in an out-of-the-ordinary style. ### OUR DAISY FLATWARE

Our Special "Daisy" pattern as illustrated above has been our leader for years and is manufactured by Wm. Rogers & Son; A.A. quality plate. It is silver-plated on a high-grade nickel base and beautifully burnished and we can recommend this line to give excellent service and the prices are moderate. The Tipped pattern, Nos. 867 to 871 are the same quality and finish only in the plain pattern.

### WHAT SECTIONAL SILVER-PLATE MEANS

The three patterns advertised here as Sectional Silver Plate are the "Tipped," "Argyle," and "Kensington." Each silver-plated spoon and fork is subjected to more wear in certain parts than others. For this reason the silver will wear off quicker at these places unless they are reinforced by a heavier coating of silver plating than the rest of the article. Each spoon or fork Nos. 30-872 to 30-886 has this reinforced plating above mentioned as indicated by the small arrows on the cut to the right.

Silver Mound!

### PATRICIA PATTERN

This Pattern has a silver mound made of a piece of sterling silver, neatly designed and mounted AT THE POINT where the greatest wear on spoons and forks occurs—(30-841 to 30-845), as indicated in cut by arrow. This greatly prolongs the life of the article, as until the silver mound wears through, the spoon or fork is practically as good as new.

## RING MEASUREMENT

BULLOCK'S U.S. STANDARD RING STOCK SCALE

1st.—Measure around the base of the finger with a small piece of paper, having the edges straight and ends perfectly square. 2nd.—Place the piece of paper on scale and measure from left to right. If it is even with line 8, size 8 is wanted; if it is halfway between 8 and 9, size 8 1/2 is correct. 3rd.—Never measure around the knuckle, if you do the ring will be too large. 4th.—Never overlap ends of paper, just let ends meet.

## SAMPLING OF MEN'S READY-TO-WEAR SUITS

Owing to the disturbed conditions in the cloth weaving centres of Great Britian, our buyers find it very hard to keep on hand a supply of uniform patterns of cloths, and in order to secure the large quantity of each line that we use, it was in some instances necessary that we take more than one pattern. On this account we regret that it will be impossible for us to supply our customers this season with samples of the different lines of **EATON-Made READY-TO-WEAR SUITS.** However, in most cases we will be able to supply everything as catalogued, but should we be sold out of the size and line ordered by you, we will send you one in a very similar pattern, equally as good, or a better quality. It is to our interest to have you satisfied in every way, and in buying from us you are always assured of full value for your money. Should you, however, after examining any of our suits, find that they are not satisfactory as regards fit, style, quality and price, we ask that you return them to us at our expense and we will gladly exchange or refund your money.

# MEN'S FURNISHING DEPARTMENT

**A WORD IN SEASON** The unprecedented advance in cost of raw materials, dyes, etc., and with no immediate outlook towards a betterment, makes it extremely difficult to sell the finished product at anything like the figures quoted a year ago. However, to offset this increase, we have brought our immense organization into play, and bought in such huge quantities that we are in the unique position of being able to sell to our Mail Order customers at prices that we feel confident will be both pleasing and profitable. We leave you to glance over the following pages devoted to Men's and Boys' Furnishings, and judge for yourself. All orders of $10.00 and over prepaid.

# HAIR GOODS OF QUALITY

## LOW PRICES AND NEW STYLES

### TRANSFORMATION OF FINE WAVY HAIR

22 ins. from end to end, long enough to reach around the crown of head. The proper method for using the Transformation Pompadour is to fasten it around the crown of the head, over one's own hair, which is combed down loose, so that the hair when dressed will mingle with, and completely cover the Transformation. Many women prefer them to switches. Can also be worn ruffled as a foundation for large hair dressings. Made in fine quality hair.

**27-474.** Price for Brown and Ordinary Shades.... **2.65**

## CANADA'S GREAT MARCHING SONG
# We'll Never Let The Old Flag Fall

PRICE 15¢ COPY

BRITAIN'S FLAG has always stood for Justice,
Britain's hope has always been for Peace.
Britain's foes have known that they could trust us
To do our best to make the cannons cease.
Britain's blood will never stand for insult,
Britain's sons will rally at her call,
Britain's pride will never let her exult,
But we'll never let the Old Flag fall.

## Perfection Player-Piano Music Rolls
### 88 Note Only
### 30c Each

Inventive genius combined with the genius of world-renowned musicians has finally produced the **Perfection Hand-played Music Rolls.** They are complete and perfect in every respect, and the wonderful achievement of producing a thoroughly high-class **full-length** music roll to retail at 30c can be explained in two words—**Edison—Electricity.** The Edison electric perforators operate fully ten times faster than perforators ordinarily used in the manufacture of music rolls, thus reducing the cost of production.

**Perfection Music Rolls Possess 10 POINTS OF SUPERIORITY**

1. They are hand-played records made by world-famous pianists.
2. All rolls are full score arrangements—no excerpts.
3. Introduction, two verses and three choruses in many songs.
4. Provided with standard tempo marks and expression lines.
5. Neatly printed labels on box and roll—not rubber-stamped.
6. Patent combination labels and end fasteners used.
7. Hard rubber flanges of the latest design, and extra strong.
8. Paper, boxes and other materials are of the highest quality.
9. Track perfectly under all atmospheric conditions.
10. Each roll is self-tubed under patented process.

## The "LEADER" Cabinet Grand Piano 187.00

FREIGHT PAID TO YOUR NEAREST RAILROAD STATION

In the building of a high-grade piano everything depends upon the ability and experience of the maker. All **EATON Pianos** are made to the specifications of our piano experts by one of the oldest and best known makers in the Dominion. Our pianos cost just as much to build, and are constructed of just as good material as any piano for which nearly double the price is asked. **The reason our prices are lower is that we buy for cash and sell for cash, on the smallest possible margin of profit, and ship the instrument direct from the factory to you. (We pay the freight charges). In this way we have eliminated many expenses attached to the selling of a piano, that the customer must pay in the ordinary way, and which does not represent the actual value in the instrument itself.** The **"Leader"** piano represents the highest possible piano value without the costs of agent's commissions, warehouse expenses, losses on time payments, excessive allowances on old instruments, etc. While the illustration gives an accurate idea of the design of the **"Leader"** Piano, it cannot possibly convey a proper conception of its highly polished, mirror-like finish, nor skillfully matched veneers, which gives the instrument a very rich and handsome appearance. The simple lines of the **"Colonial"** will harmonize splendidly with almost any style of interior fittings or decorations and this design may be obtained in either mahogany or walnut. As the result of long experience and great skill of the makers, together with the use of fine and carefully selected and treated materials, the **"Leader"** possesses a sweet, rich quality of tone, which with the faultless and responsive action can be controlled or modulated to the finest degree. All **"Leader"** Pianos are fitted with standard reliable, quick-repeating type actions. The hammers are hinged to a brass flange which is recognized to be one of the best modes of construction. This insures responsiveness to touch under varying atmospheric conditions. **The Tuning Pins** are all nickel-plated and each one is insulated with a maple bushing where it passes through the plate to the pin block, insuring solidity and greatly increasing the keeping-in-tune qualities of the piano.

### FEATURES OF THE "LEADER" PIANO

Seven and One-third Octaves.
Ivory Keys and Polished Ebony Sharps.
Copper Wound Bass Strings.
Full Metal Plate.
Continuous Heavy Bass Nickel-plated Hinges on Both Top Lid and Fall Board.
Noiseless Pedal Action (Norris patented).
Automatic Full-length Music Desk.
Convexed Sound Board.

DIMENSIONS:—
Height 4 feet 6 1/2 inches.
Length 5 feet 1 1/2 inches.
Width 2 feet 3 1/4 inches.

### YOU TAKE ABSOLUTELY NO RISK

We give you the opportunity to test for yourself the merits of our Pianos before any sale is considered closed. When you purchase one, keep it in your home for three months, try it thoroughly, have your friends try it, and if not entirely satisfactory, return it and have your money refunded, including all shipping charges. Can you suggest a more liberal proposition or any agreement whereby the purchaser's interests are more carefully guarded?

## The "LYRA" Cabinet Grand Piano 227.00

FREIGHT PAID TO YOUR NEAREST RAILROAD STATION
GUARANTEED FOR TEN YEARS

In the **"Lyra" Piano** like the "Leader" the main feature is its splendid value, in fact, we would say most extraordinary value. The **"Lyra"** is our medium-priced instrument, and since its introduction has become very popular. To merely state that the case is most handsome, in no way does it justice, nor can it convey a proper idea of its artistic design and rich finish. Only the finest selected veneers have been used, and these being skillfully matched, show splendid pattern effects over the entire case. The varnishing and polishing, done by the master hand is a work of art, giving that rich brilliant and trapaparent appearance always associated with very high-grade pianos. While it is a matter of great satisfaction to have a piano that will always be admired by your friends and yourself, and prove an adornment in the home, there are other features which should have careful consideration. Fine tone, the staying-in-tune quality, and mechanical perfection in the action are features much to be desired and certainly of great importance. Now the **"Lyra"** possesses a purity and richness of tone that is at once revealed, even by the simple act of running the fingers over the keys. Its brilliancy and full-swinging quality, together with the instantly responsive action will surely prove to be an inspiration to the student, and a delight and source of satisfaction to the advanced musician.

**The "Lyra" Piano,** in which you may choose from Colonial and Louis XV. design, in walnut or mahogany finish, has full Empire or Grand top, which opens in one piece full to the back. This discloses the beautiful, highly-finished interior. These artistic and dignified designs harmonize readily with almost any style of furniture. **The "Lyra"** is fitted with a double repeating action, sensitively responsive to the lightest touch. Each working part is faced or bushed with a high-grade wool piano felt, and every one of the eighty-eight hammers is fitted to an individual brass flange used only in the best standard actions. This greatly reduces the possibility of their becoming loose and insures a uniform responsiveness under varying atmospheric conditions. The tuning pins are nickel-plated, each one being fitted with a maple bushing, completely insulating it from the metal plate.

### GENERAL FEATURES OF THE "LYRA" PIANO

## THE "SYMPHONY" PIANO

### THE GRAND PIANO IN UPRIGHT FORM

**The "Symphony" Piano** is slightly larger than the "Leader" or "Lyra" and consequently has increased area of sound-board and greater length of string, giving it increased power and volume. It is a strictly high-class, artistic instrument and possesses many fine points of construction only to be found in the highest priced modern pianos. In durability, quality and sustaining power of tone it is as good as money, skill and experience can produce. It is the Louis XV. design and can be supplied either in mahogany or walnut. 280.00

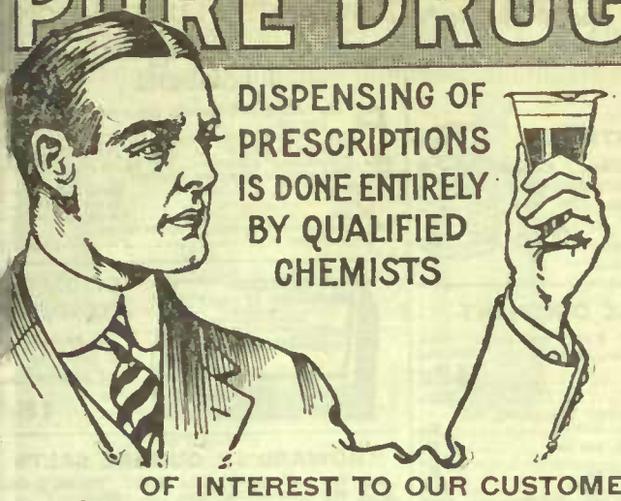
# PURE DRUGS AND CHEMICALS



DISPENSING OF PRESCRIPTIONS IS DONE ENTIRELY BY QUALIFIED CHEMISTS

*We carry a Very Extensive Line of Drugs for the Home and Farm*

## OF INTEREST TO OUR CUSTOMERS

In our dispensary we employ only qualified chemists, and all prescriptions are carefully made up and checked before being sent out. Our Mail Order Customers can rely on having their orders promptly and efficiently cared for.

## IMPORTANT NOTICE

NOTE 1—We neither sell liquors nor procure them. Female pills, etc., not sold except on physician's prescription.

NOTE 2—When the word POISON is placed after any item, it is necessary to have physician's prescription accompanying order, which can be repeated if so marked; but for very VIOLENT POISONS it is necessary to have a new order or prescription each time, or if a long distance from physician, STATE WHAT POISON IS REQUIRED FOR and how it is going to be used.

## REGARDING DRUGS NOT IN STOCK

**NOTE** When an order comes in for a drug, patent medicine or proprietary article which we do not stock, we procure it without delay if possible, but if there is any delay, such as sending to the States or to Europe, we notify customer before sending. NOTE—Under the Dominion Act in regard to patent or proprietary medicines, should item not be registered there will be considerable delay, as the authorities in Ottawa require to be satisfied that no injurious substance enters into the preparation, and that the dose is of a perfectly safe character where not mentioned on label.

We carry a very extensive line in Drugs and Drug Sundries required for the home and the farm.

We do not make a sale of less than FIVE CENTS, EXCEPT where the ingredients are in a mixture. But when wanted separately FIVE CENTS is the SMALLEST charge we make for any item of drugs.

When pounds are quoted, it means 16 fluid ounces if liquid, and 16 ounces by weight, if dry. A pint is 20 fluid ounces, and a gallon 8 fluid pints. Some fluids are sold by weight, such are specially mentioned.

## PLEASE NOTE—CONTAINERS EXTRA

We charge extra for bottles, tins, and other containers where quotation is for bulk liquids. The prices of bottles, etc., are:

| | | | |
|---|---|---|---|
| ½ to 2-oz. bottles, each | 2c | 160-oz. (1 gallon) bottles, each | 30c |
| 3 to 4-oz. bottles, each | 3c | 1-quart tin, each | 13c |
| 6 to 10-oz. bottles, each | 4c | ½-gallon tin, each | 15c |

# THE FINEST OLIVE OILS

88-014. **Nec Plus Ultra Olive Oil.** This selected oil is obtained from olives grown in the valleys of the Maritime Alps which are the very finest olives, and only the lightest oil is taken from them, consequently it is of the greatest medicinal value, being easily assimilated. We are the only importers of this special quality into Canada, and can positively state that it is the very finest oil produced.

3-oz. bottle.... 25c
8-oz. bottle.... 50c
Pint bottle, 20 oz. .... 1.00

### EXTRA SUPERIOR OLIVE OIL

88-015. This is a very superior Oil, of good flavor and made from ripe olives grown in the Maritime Alps, but of fairly heavy pressure, imported by ourselves.
8-oz. bottle.... 40c Pint bottle 20 ounces.... 75c

88-016. **Extra Virgin Quality Olive Oil** is a splendid oil obtained from sound, ripe olives grown in the valleys of the Maritime Alps, but is a slightly heavier pressure than our Nec Plus Ultra quality and only a connoisseur could tell the difference between them. Bottled by ourselves.

## ELASTIC STOCKINGS

**NOTE.**—Re size of stockings, an average proportioned leg measuring 14 inches at the calf, will require a No. 8 stocking, but should a part of the limb be swollen then a special stocking would have to be made. In sizes above No. 8 allow for calf measurement, 1 inch for each size larger; and the price per size over No. 8 is increased as follows: Thigh stocking, 25c; knee stocking, 20c; garter stocking, 15c; leggings, kneecaps or anklets, 10c a size. Then when there is a marked difference in sizes between the regular sizes and what is required either in length or any other part, a special stocking has to be made, the price of which is about 25 to 33 1/3 per cent. more than the regular prices.

Directions for Measurement:

Anklet, measure at A, B, C.

Legging, measure at C, D, E.

Garter Stocking, measure at A, B, C, D, E.

Knee Cap, measure at E. F. G.

Knee Stocking, measure at A, B, C, D, E, F, G.

Thigh Stocking, measure at A, B, C, D, E, F, G, H, I.

Also give length required as marked by dotted lines.

In measuring give actual size in inches and we will allow for stretching, etc.

# DELIGHTFUL PERFUMES THAT SUGGEST THE FRAGRANCE OF BEAUTIFUL FLOWERS

ALL PRICES ON THIS PAGE INCLUDE WAR TAX

## EATON'S GOLD LABEL PERFUMES

These Perfumes are divided into two classes: those representing the odors of individual flowers like **Moss Rose, Violet, Lily of the Valley,** etc., and those representing bouquets, such as **Fougere Royale, Jockey Club,** etc. The prices of perfumes depend primarily upon their strength, concentration, and upon the artistic skill with which they have been combined. We strongly recommend Gold Label Perfumes to our customers with the assurance that they will find them exquisite productions of the Perfumers' Art, and to have all the elements of sweetness, diffusability and lasting fragrance.

These cameras are essentially for snapshot photography, requiring no focussing. They are practical instruments in every respect and will produce the best work demanded within their scope. They are made of well seasoned, well finished and well assembled wood throughout. The trimmings are heavily nickel-plated and polished, and the box covered with seal grain composition leather. One feature worthy of notice in this series of **Buster Brown** cameras is that the spool support is contained within a metal cup which makes it impossible for the spool to bind in winding. The lens has diaphragms with three different sized openings. There are two ground glass finders for horizontal and vertical pictures. Noiseless winding key.

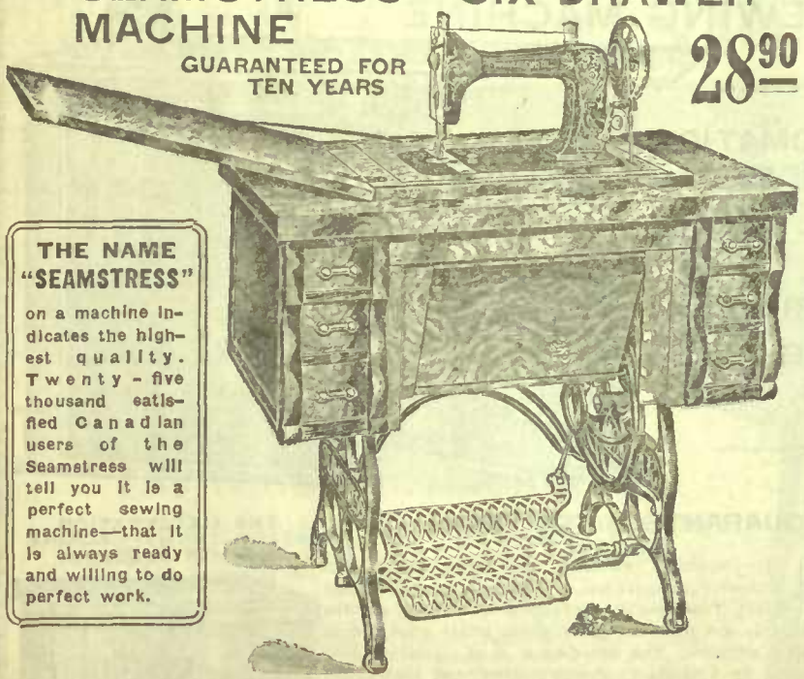
## "SEAMSTRESS" SIX-DRAWER MACHINE 28.90

GUARANTEED FOR TEN YEARS



**THE NAME "SEAMSTRESS"** on a machine indicates the highest quality. Twenty-five thousand satisfied Canadian users of the Seamstress will tell you it is a perfect sewing machine—that it is always ready and willing to do perfect work.

**62-710** **The Cabinet Work** is of selected quarter-cut oak, both original and beautiful. It is equipped with an automatic lifting device, which quickly, quietly and easily raises the sewing head to place. **The Self-Regulating Tension** is a patented device that cannot be used by manufacturers of other machines. It is difficult to duly emphasize the importance of this contrivance, which automatically, and without any attention from the operator, regulates the tension for all classes of goods and sizes of thread. After you have once seen it demonstrated in your home you will never again be satisfied with the ordinary tension devices. **The Nickel-plated Steel Attachments** are of the very highest quality throughout. They are all packed in a double black enamelled velvet-lined metal box, and are accompanied by a profusely illustrated, easily understood Book of Instructions. **The Ball-bearing Stand** is finished in black enamel, and is equipped with a belt-retaining guard and non-binding pitman. ## SURFACE OAK FIBRE VENEER

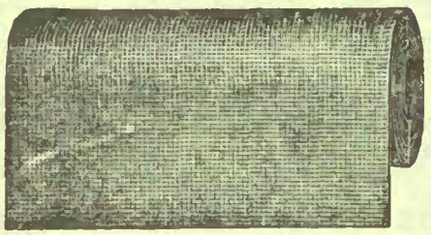
### Looks like Genuine Oak, but costs less

It is one of the few wall and floor coverings that gives a quartered sawed effect, as it is an exact reproduction of the real wood. For a border around a rug or carpet it has no equal. It also produces beautiful interiors on walls and ceilings where an expensive artistic wood effect is desired at a reasonable cost. Is appropriate for halls, dining-rooms, dens, living-rooms, bathrooms, churches, public halls, store windows, etc. **Fibre Veneer** is applied to floors and walls with ordinary wall paper paste and when dry a coat or two of varnish will give it the appearance of highly polished oak. Put up in rolls of 8 yards, 36 inches wide, with full information how to use printed on back of each roll.

**65-403. Made in Light Oak and Dark Oak.** In 8-yard rolls, 36 inches wide. **Per roll** ..... **75c**

**65-404.** We can also supply **Imitation Walnut Fibre Veneer in 8-yard rolls, 36 inches wide. Per roll** ..... **75c**

## DYED WALL BURLAP



**Dyed Burlap** is extensively used for decorating the walls of halls, stairways, dining-rooms, libraries, living-rooms, dens, also churches, schools, stores, public halls, hotels, etc. It is one of the most serviceable wall decorations at a low price. An excellent quality in a good even weave and has a specially prepared backing making it ready to paste on the walls with ordinary wall paper paste. Material is about 35 inches wide and in three popular shades. **Red, Green and Brown.**

**65-401. Note our low price. Per yard** ..... **25c**

## OIL-COATED BURLAP

## BISHOPRIC SHEATHING BOARD

**WHAT IT IS. Bishopric Sheathing Board** is a combination of lath, asphalt, mastic and heavily sized high-grade cardboard.

Asphalt Mastic is proof against moisture, heat, cold, sound, vermin, rats, etc., is unaffected by climatic conditions or changes in the weather. Has advantages over lime plaster walls and ceilings.

### SUBSTITUTE FOR SHEATHING

**Bishopric Sheathing Board** is used as a substitute for lumber sheathing. It is nailed to the outside studding of building with the lath and asphalt side exposed, then the weather board is nailed on. This offers double protection, gives insulation and dead air space between the sheathing and siding. Keeps the cold out in winter and the heat in summer.

**A Substitute for Lath and Plaster** when nailed directly to the inside studding with the finished surface exposed on the inside of building. Will take any kind of decoration.

### FOR CEMENT OR STUCCO COATING

**Bishopric** is an ideal material for exterior cement or stucco work. It is nailed on with the lath side exposed. Cement firmly adheres to the lath and asphalt mastic, and makes a solid smooth exterior.

**65-415. Bishopric Wall Board is put up in crates, 14 sheets, 4 x 4 feet, 224 square feet. Price, per crate** ..... **6.70**

## BEAVER BOARD FOR INTERIORS

A high-grade Wall Board that takes the place of lath and plaster for walls and ceilings. It is made in sheets 3/16 of an inch thick with a pebbled mat surface, which is an excellent foundation for decoration. Color is **Cream White only.** A great variety of beautiful effects can be obtained either by either water or oil paints. **Beaver Board** is nailed directly to the studding with 1½-inch flat-headed nails and the joints covered with strips which form artistic panel arrangements. These strips can be painted or stained to match woodwork and harmonize with color scheme of your room. Is used in residences, summer homes, cottages, office buildings, garages, barns, chicken houses, factories, stores, etc.

**When ordering Beaver Board always state the number of sheets required, also state size.**

**65-405. Beaver Board is in the following sizes, 4 by 8, and 4 by 9 feet long. Lots less than 1,000 square feet. Per square foot** ..... **3c**

**THE Acme RANGE** is made from our own specifications, and has been constructed to meet the needs of Canadian homes. It is made to burn hard coal only, and will give perfect satisfaction with this fuel. The duplex flue construction makes it possible to get the desired heat in the oven with a small amount of fuel.

**THE FIRE BOX** is oblong in shape, lined with fire brick, and fitted with duplex grates, which may be removed without disturbing the brick linings.

**THE OVEN** is square plan, fitted with an oven rack and oven door opener. This oven is a good baker, and is heated evenly.

**THE TOP** has one reducing ring cover. The rest of the covers are of the double pattern which prolongs their life and prevents warping.

**THE TRIMMINGS** The range is plain in design, all carving possible having been purposely avoided in order to give it the rich appearance, and save labor in cleaning. The nickel parts are carefully arranged to give the range a well balanced, pleasing appearance. These nickel parts are removable for cleaning purposes. Size of main top over all measures 46x28 inches.

### THE CONSTRUCTION

The Acme C Steel Range is made of heavy rolled sheet steel, and is accurately pr portioned in all its parts. It is cabinet style, and stands on four cast-ir corner legs, which allows free access for sweeping under the range. The oven is square pattern, and measures 20½ x 21 inches, fitted with full-size drop door, and ornamented wi nickel edge trimmings and nickel medallion, having loose centre removable for thermomet If desired. Should thermometer be wanted on the oven door instead of the plain centreplec mention this in your order, and add $1.00 to the price.

### THE WOOD FIREBOX

The Acme C can be fitted to burn wood 26 inches long, and for this purpose is suppli with a special firebox, designed to be both efficient and economical. As a woo burning steel range you will find it to be just as satisfactory as when coal is the fuel, all features being just the same with the exception of the special firebox.

### THE RESERVOIR AND WARMING CLOSET

The Reservoir is made of heavy copper, tinned inside, and finely nickeled outside. It supported in place at either end by brackets. It holds ten gallons of water, and has a close fitted black japanned cover. The warming oven is made of best rolled sheet steel, and h roll top door, and all edges, corners and handles nickel-plated. The length of stovepi running up through the warming closet, as shown in cut, is sent out complete with ea warming closet, and the opening at top is 7-inch standard size for connecting with the usu stovepipe.

The Acme C is a range of very handsome appearance, the smooth nickel ornamentation adding elegance and brightness to a correctly designed and compa body structure. It is made in one size only, this being the most serviceable, and has a si hole top with 9-inch covers, including one sectional cover in three parts. We are enabled sell the Acme C Steel Range at the special price quoted, as we buy immense quantiti in one size only, and that the most desirable size for any household. We sh this range strongly crated with wood, and corners of crating strengthened by hand iron, th of itself being a feature that has proven satisfactory by greatly reducing the chance of dama in transit. Each range is sent out with shaker, lifter, poker and scraper; all detachab parts packed securely in oven.

### EXTRA GRATES AND LININGS

For extra set Grates and Linings for hard coal add $3.25; Wood Firebox $2.75. Grates and Linings for soft coal add $3.25. If Waterfront is wanted, add $3.00. If Reservoir is not wanted, deduct $4.50.

The firebox for burning hard coal is w proportioned, lined with heavy firebrick and supplied with the popular duplex grat well fitted. A special feature in connecti with the firebox is the duplex draft, whi gives the fire a strong air feed from both en of the grate, thus ensuring complete co bustion of fuel, and avoiding any possibili of a one-sided fire when baking or cookin

### FITTED WITH TILED AND MIRRORED WARMING CLOSET

**THIS RANGE** embodies all the latest improvements known to the stove manufacturers. It has a big square plan oven, size 20 inches, fitted with oven rack and drop oven door. This door forms a convenient shelf for pulling out baking to examine or for basting.

**THE FIRE BOX** is deep and narrow when fitted for coal, which shape economizes fuel, and makes a good baking fire. The fire box is fitted with duplex grates lined around with fire brick. When wood is the fuel burned the fire box is fitted with cast-iron linings, and will take 26-inch wood. The draft to the fire enters from both ends of the fire box, thus giving each end a good supply. This also makes a fast, even fire. The top has six 9-inch covers, including one reducing ring cover and one damper cover, which will be found very useful for checking fire over night.

**THE ASH PAN** is large and roomy.

**THE WARMING CLOSET** is finished in tile of a combination of tasteful colors. The doors of the warming closet are made with mirrors. The top finish rail has an oval mirror as well. Size of warming closet 37x12 inches.

**THE GENERAL APPEARANCE** of this range is very pleasing, and the tiled warming closet is sanitary, easily cleaned, and will last the full life of the range. We can recommend this range to those wanting a first-class, high-grade cooking fixture.

**THE QUICK BAKING FEATURE,** the roomy oven, the ease with which it can be cleaned, the attractive appearance, the general up-to-dateness of this range, have made it a general favorite wherever sold.

**THE RESERVOIR** is 19½x13x9 inches. Stove is supplied with lifter, poker, shaker and towel rack.

**BURNS COAL**

# 44.00 AS ILLUSTRATED "OLD HONESTY"

## COAL OR WOOD

**This is a Range in every sense of the word, being entirely operated om the front. It is built on the most scientific principles of range con- ruction, and adapted to burn hard coal, soft coal and wood.**

**HE BODY** is made of heavy gauge polished and oiled blue steel sheets, closely riveted, with double air space between ven bottom and main bottom, the flues being thoroughly lined with asbes- s milliboard. It is fitted with cast-iron smoke flue, has heavy steel bands ound the bottom, nickel-plated in front, rests on four substantial slip-on gs, the two front ones being nickel-plated.

**HE ASHPIT** is fitted with ashguards so constructed that all the ashes will drop into the ash pan. It is also provided with full ze end draft operated from the front.

**HE OVEN** is very large, measuring 20½ x 20½ x 15½ inches high, is sup- lied with two oven racks, and will hold twelve 9-inch pie plates at one time. A special feature is he oven door construction, which is simple and ffective, being strongly braced on both sides, and ill stand the strain of 500 lbs. when open. The ven is thoroughly ventilated.

**HE FIREBOX** A special feature of the fire- box is the heavy chilled cast inings, the back lining being 1¼ inches thick in he centre. The front lining is in three pieces, of hilled iron castings, making a total of 1½ inches thickness. It is fitted with combination pouch eed and wood door, and by simply lifting out a mall piece of the end brick the range can be read- y changed from hard coal to soft coal or wood. When pouch feed is open fuel can be added from he front. An extra wood grate is supplied which rops in on top of the duplex grates. The duplex rates can be removed without disturbing the fire- ox linings.

**HE TANK** which holds eleven Imperial gal- lons, is made of cold rolled pan- ished copper, encased in steel, and heated by con- act. Another new and exclusive feature in range onstruction is our broiling section. It is operated y the shaker.

**HE TOP COOKING SURFACE** which is polished, measures 42x29 in- hes, and has six 9-inch covers, one of which is a reducing cover. ll are interchangeable.

**HE HIGH WARMING CLOSET** has many advantages. First, it is very roomy, and has glass oven oors. The doors are of the drop pattern, with gravity catches on the hinges. Ve have also added a timepiece. We consider the most important place for a imepiece is in the kitchen, and if in the kitchen, it should be on the range, s everything done on a range is done by time, and, as this range cooks every- hing to the minute, it is important.

**N STYLE AND FINISH** the "Old Honesty" is of a rich, pleasing design, is easily kept clean, does not require black- eading, a damp rag being all that is necessary to keep this range looking new. here is no over-ornamentation or excessive carving to detract from its leasing appearance. It is a splendid baker. Pastry and bread do not have to e turned in the oven when baking.

Height over all to top of warming closet 60 inches. lain top over all measures 56x27 inches.

# VERY CHEERFUL COAL GRATE (AS ILLUSTRATED) 8.25

**SHIPPED FROM FOUNDRY FREIGHT PAID**

**The Acme Grate** is a coal heater constructed to allow for the removal of the front sections and give the general appearance of a fireplace. We recommend this heater for rooms where a fireplace would be appreciated. It adds wonderfully to the cosiness of a room, perfectly safe, easily set up and easily attended. The frame, the top, the bottom and the front are all cast-iron. The back is steel, lined with fire brick. The fire is held in a basket with a tip grate, same as a fireplace. The top has a removable section on which a small kettle may be set. Wood, soft coal or hard coal may be used. Best results are obtained from hard coal. The heater requires a stove pipe to a chimney. As a heater it gives about the same amount of heat as an ordinary fireplace. It is plain black, no nickel or fancy trimmings. Height 37 inches, width 29 inches.

**WITH CASING**

We have had this furnace constructed so as to give the greatest efficiency possible for the amount of fuel consumed. The general construction is of the low set type, which leaves plenty of pitch for the hot air pipes, making for fast service.

**THE GRATES** are the triangle rotary grates, any one of which may be removed and replaced without tearing down the furnace.

**THE FIRE POT** is made in two sections, which saves the cracking caused by expansion and contraction, and in case of repairs saves half the expense.

**THE RADIATOR** is the most important feature of any furnace. This is made with one flue which starts at the feed door and does not allow the smoke or gases to escape until they have travelled completely around to the other side of this feed door. A baffle plate at the smoke pipe collar distributes this heat the full depth of the radiator.

**THE COMBUSTION CHAMBER** has a separate wall from the radiator, making another steel surface, or three steel surfaces in all, throwing heat into the casing in addition to the cast top and fire pot.

**DIRECT DRAFT.** A damper is placed in the radiator on the side of the door nearest the smoke collar. This gives a quick, short route for smoke when putting on coal.

**DUST FLUE.** A dust damper and flue are so arranged as to take the dust caused by dumping the fire into the smoke outlet.

**GENERAL.** This furnace is built to burn coal only, and has proven itself equal to the capacity as shown in our catalogue when the weather is zero. In order to assure yourself of plenty of heat for extreme weather allow 20 per cent. reserve for every ten degrees that your weather drops below zero.

## DESIGNED UPON WELL-TRIED PRINCIPLES O FURNACE CONSTRUCTION

**INSTALLING.** We do not instal furnace outside Toronto, and would recommend o customers to procure their hot air and smoke pipes locally, as conditions do not near enough resemble each other in the different houses to make standards possible. Ma your hot air pipe run as direct as possible, giving an advantage in size to long run Never put a hot air pipe in an outside wall. Take the cold air from the coldest part the house to the bottom of the furnace casing as direct as possible, and an amount equ to the combined total of the hot air pipes. All hot air pipes must continue to rise fro the furnace to the registers.

**SMOKE COLLAR.** The smoke collar is made interchangeable so as to be easily put either side of the furnace. A steel plate is arranged with bolts to allow of this chan without cutting. This allows you to have your smoke pipe on either the right or left si without ordering it specially.

**DRILLED.** If you wish your furnace drilled in order to connect it to the boiler a $1.00 to the price as shown in catalogue, and state "Drilled" when ordering.

**SIZE REQUIRED.** To ascertain size of furnace required multiply the length of hou in feet by the width of house in feet, and multiply this total by 18 if house is two-store and by 27 if house is three-storey.

# BURNS COAL OR WOOD 10.50

**This Brick-lined Hot Blast Heater** will be found to be an economical and durable heater. It burns hard coal, soft coal or wood. The highly polished nickel-plated mounting and large mica door give it a prominent and cheerful appearance, and it will be an ornament to your house. The hot blast method consists of an iron tube running from the top of the stove, through which the air passes to the top of the fire in the centre. Thus the air is superheated, mixing with the gases from the coal, utilizing more of the heating properties, consuming the smoke and soot, and producing more perfect combustion. The dampers are of the screw air-tight pattern, and with the thick fire brick linings the fire may be held over night, throwing off a steady heat all the time, under perfect control. Thus the economy in fuel. Each part is given individual attention, and all fittings are of the best material and workmanship. When burning wood remove the hot blast pipe.

13-557. CROSS CUT SAW. 13-558. RIP SAW.

These Circular Saws have won a reputation that we are very proud of. Are made from the finest steel produced. They are geometrically perfect and every blade is as true and free from flaws as it is possible to make them. Being tempered and straightened by heat and pressure in air-tight ovens, between heavy revolving plates, a perfectly even temper is produced throughout the saw and this process renders them much less liable to buckle. These saws will stand up to their work under all circumstances and will hold an edge longer and do more work than most other circular saws on the market. The gullets are correctly ground and this also lessens the liability of any saw cracking between the teeth. You will find every saw to be faultless in material and manufacture. When ordering be sure to give all the information requested. Circular saws are shipped direct from factory. **State whether Cross Cut or Ripping is required.**

# CONSPICUOUS VALUES IN WASH-DAY NEEDS

**4.90**

**Buys this High-Grade WRINGER**

13-375. A strongly made, correctly proportioned Wringer, highly finished hardwood frame, 11-inch white rubber rollers, securely vulcanized to the shaft; strong spring with top screws, all exposed parts are non-rustable, geared with ball-bearings, thus ensuring the best possible amount of labor in operating. The clamps will fit wooden, iron or galvanized tubs. This is a well-known, high-grade wringer. Price..... **4.90**

**Big Value at 7.85**

13-376. **Ball-Bearing Mangle** to clamp on table. Has 24-inch hard maple rolls 3½ inches in diameter, nicely finished, compact and strong. Easy to operate. Price..... **7.85**

## THE "GUARANTEE" Only 5.50

**A PERFECTLY CONSTRUCTED WRINGER**

13-378.

The rollers are made of what we consider the highest grade rubber for this purpose, being pure Para white rubber. Another favorable feature is the enclosed cogs and high-grade ball-bearings by which the rolls can be turned with the least possible effort, thus lightening the wash-day labor. While made for durability and service, the "Guarantee" Wringer is handsomely finished, and particular care has been taken that every part is perfectly fitted. The quality is high and the price low. Price..... **5.50**

## SAVE MONEY ON A "RING-RITE"

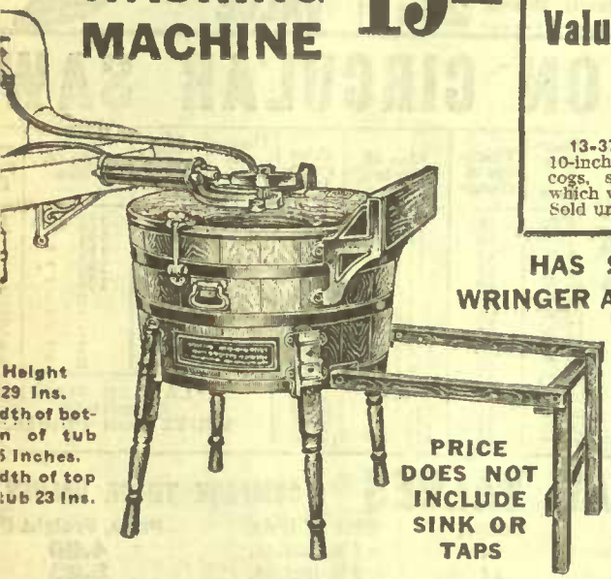
13-377. **The "Ring-Rite" Clothes Wringer** has 10-inch genuine rubber rolls, vulcanized to shaft, exposed cogs, strong spring and top screws, adjustable clamps, which will fit galvanized, wood or fibre tubs. Sold under the **EATON** guarantee. Price..... **2.85**

## THIS WATER-POWER WASHING MACHINE 15.00



Height 29 Ins. Width of bottom of tub 15 Inches. Width of top of tub 23 Ins.

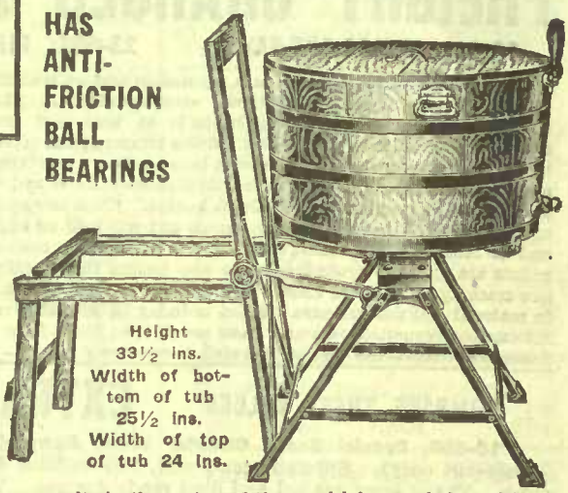
**HAS STRONG WRINGER ATTACHMENT**

**PRICE DOES NOT INCLUDE SINK OR TAPS**

13-379. **The Water-Power Washing Machine** is made from selected materials. Is fitted with wooden dolly inside, and sides of tub are corrugated, so that the clothes are rubbed as thoroughly as on any washboard, and without labor. The motor is of the poppet valve system, which will not corrode or stick up with sand or dirt that might be in the water. The cylinder and cylinder heads are brass and the piston aluminum. Gearing is of best malleable iron, and is covered by shield. The washer is fitted with tub stand. To find out if you have sufficient water pressure to run this washer, turn your tap on full, and if you have a flow of 3½ gals. per minute, the pressure is sufficient to operate this machine. **15.00**

## "MISSION" WASHER Only 9.45

**HAS ANTI-FRICTION BALL BEARINGS**



Height 33½ ins. Width of bottom of tub 25½ ins. Width of top of tub 24 ins.

13-380. **The Easy Working "Mission" Washer,** combined with hardwood tub stand and wringer board, saves time and labor, saves a separate wash bench, saves taking off and replacing the wringer. The tub is carried on a steel pivot, rests on anti-friction ball-bearings, making a strong and simple washing machine. The motion spring beneath the tub aids greatly in the work. The mechanical principles on which this washer is built assure you the most satisfactory results in the saving of time and labor, and the quick and perfect cleansing of the clothes. The tub is made from the best quality kiln-dried lumber out of one of the finest known woods to stand water. Inside castings are all galvanized to prevent any possibility of rusting..... **9.45**

## STRONGLY CONSTRUCTED "Imperial Rotary" WASHING MACHINE 7.50

13-381. This is a strongly built **Washing Machine,** easy to operate. It is constructed with sliding cylinder on square post, insuring the greatest strength of any rotary gearing yet produced. It has roller-bearings. The overlap lid allows the top of washer to open up to nearly full size. This machine is equipped with detachable collar for inside dasher, which prevents the clothes from being torn. The wringer shelf allows plenty of room for attaching a large-size wringer. The tub is made of best quality Louisiana Cypress, and is handsomely finished. This machine will wash everything from the finest fabric to heavy blankets. The mechanism is simple, but substantial and compact. Height 30 inches. Width of bottom of tub 25 inches. Width of top of tub 23 inches. Price..... **7.50**

## COMBINATION TUB-STAND AND WRINGER 7.00

13-382. **This Combined Folding Tub-Stand and Wringer** is made from specially selected hardwood, with all fittings galvanized to prevent rusting. Strong spiral spring, 11-inch solid rubber rollers vulcanized to shaft. Outside non-rustable cogs, reversible drip board, which conducts the water into either tub. Takes up very little room when folded. You will be pleased with its substantial and neat appearance. Price... **7.00**

## THE "IMPROVED TORONTO" WASHER

Only **4.25**

13-383. A strongly constructed machine, made of best selected stock, and all parts securely braced to stand continuous service. Large style lid, which opens in such a way as not to interfere with wringer. It is fitted with the improved lever gear, and the tub is fully corrugated on the inside, on the same principle as a wash-board. Hoops are heavy steel, through which the four legs are securely bolted, ensuring steadiness when operating. Joints are perfectly tight, thereby retaining the heat in the water for a considerable time. No foul steam can escape when washer is in use. The perfectly tight joints retain the heat in the water, thereby washing cleaner and easier. Either fine or coarse materials can be thoroughly and safely washed in this machine. Easy to operate. Height 29 inches. Width of bottom of tub 25 ins. Width of top of tub 23 ins. Price.... **4.25**

## EATONIA
### POROUS ABSORBENT PAD

**80-750.** The material is not a felt. It is a practical and specially made fabric. It consists of several layers of wool, hair and India fibre. It is so constructed that it forms a strong, porous and yet soft material. The long wool fibres of the facings are interlaced through and through from side to side, thus the thousands of small holes or pores in the fabric, carries the moisture to the outer side, permits of free circulation, is therefore very cooling. Suitable for heavy work conditions.

# BUY EATON QUALITY RELIABLE FARM PLOWS

## GENERAL PURPOSE PLOW

The **Plow** shown in cut is our No. 1. It is very light in draft, and strongly built. The mouldboard is made of best American soft centre crucible steel. Particular attention is paid to the polish and finish of these mouldboards. The patented tilting coulter we supply is a decided advantage where land is stony or full of roots. The beam is heavy steel, correctly arched and shaped. The handles are hardwood, strongly braced and nicely painted. They are adjustable. The landside is highly finished. This plow will turn an even furrow, and scour perfectly. We ask you to compare this plow with any other, for it will stand up to any test. Fitted with cast share, either 7, 8 or 9 inches wide, and one extra share and wrench, and straight tilting coulter. **State width of share when ordering.**

**71-440. Shipped direct from factory freight paid..... 11.50**

**Note changes and additions we can make to equipment of Plows: For hard, clay ground we can supply dip shares if ordered; fin cast shares instead of plain shares if desired. Equipped with steel share instead of cast share add $2.75 to price. Fitted with skimmer and fin share instead of straight coulter and plain share if desired. For front gauge wheel extra add 1.00 to price. With skimmer in addition to straight coulter add 90c to price. For 13-inch rolling coulter add $3.25 to price. Plain cast shares are 3 for $1.00, or 35c each singly.**

## ONE-HORSE PLOW

HIGHEST QUALITY THROUGHOUT

**9.85**

FREIGHT PAID TO YOUR STATION

This is the highest quality **Steel Plow** throughout, and especially designed for one-horse work. Mouldboard is the best soft centre steel, the same as used in our regular two-horse plows. This plow is the best one-horse plow we know of. It cuts the width it turns, and turns a furrow properly. The extra long clevis allows for the horse to be far over so that plow will work right up to trees, and clevis is reversible so that hitch can be made on the other side and dirt thrown up on vines, etc. It is light and strong, splendidly finished, and made for real plowing. Will stand any test. Capacity is furrow 7 to 9 inches wide.

**71-443. Freight paid to your station. Price..... 9.85**

## SHAKER POTATO DIGGER

**16.75**

FOR ANY SOIL

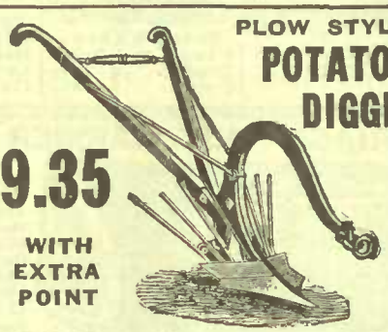
A reliable and satisfactory **Potato Digger.** It brings potatoes out clean and whole on top of the ground. The weed fender attached to beam parts the vine. Blade is high-grade polished steel, of correct shape for the work. Rod platform is operated by a trip shaker sprocket underneath, which gives continuous up-and-down motion, shaking the dirt from the potatoes. The beam is heavy steel. Handles are adjustable up or down. The double gauge wheel truck straddles the row and holds the digger at uniform depth. Will work well in hard ground. It is a well-built and durable implement.

**71-446. Freight paid to your station. Price.... 16.75**

## PLOW STYLE POTATO DIGGER

**9.35**

WITH EXTRA POINT



**A Potato Digger** that has given satisfaction and good service wherever used. It will turn potatoes out of the ground without damage or loss, and the prong screen separates them from dirt, vines, etc., leaving them clean. This digger is well made, strong and low-priced. Will work in any soil, and especially works well in reasonably light soil. We send an extra point.

## FANNING MILL

**This is one of the most highly perfected Mills on the market**

**WE CAN SUPPLY A BAGGER TO FIT THIS MILL; IF WANTED ADD $7.00 TO PRICE**

We consider this **Separator** equal to any machine we know of. It will pay for itself by not wasting clover or timothy seeds in the blowing. It has an oilcloth apron over the sieves. This is a patent device for separating oats from wheat and other grains. Grain travels over 8 feet of screen before the fan blast strikes it. Though of large capacity, it turns easily. The elevator is built on an angle, thus securing a better delivery. It has compound shake end motion and other features which many good separators do not possess. Wheat, oats, peas, timothy, red-top clover, thistle heads and other weeds can all be put in the mill at once and be perfectly separated.

EXCEPTIONAL VALUE

This **Grinder** is fitted with plates that are of a special concave design, and will grind thoroughly to any degree of grinding wanted. They are made of hard-chilled metal, and are reversible, thus giving double service and wear. The machine has a ball-bearing at thrust end of shaft, which is a simple and effective device for the instantaneous separation of the grinding plates while the machine is running. The main shaft is extra heavy, made of high-grade steel, and the bearings are long. Balance wheel is supplied with all sizes except the 7-inch grinder, which does not require one. These features make these machines adapted to fast running and heavy work. The feeding arrangement is correct, and the trough, being long and broad, gives feeding and screening capacity equal to the rapid work of the grinder. These grinders we guarantee in every way. Every farmer who has power on his farm should own one. We shall be pleased to answer any questions regarding the speed and power best suited to give greatest quantity and quality of grinding. We supply parts for any of our machines.

## A VERY CLOSE SKIMMER

**GETS ALL THE CREAM ALL THE TIME**

## OUR GUARANTEE

**IMPORTANT:** Try it out in your own way, on your own farm, morning and night. Test i its extremely close skimming, its easy running and easy cleaning features. Test it in any way like, and if it fails to make good every claim we make, write and tell us, and ship it back and your money back. Every machine is covered by our guarantee for its efficiency, and also ag any defects in material and workmanship.

## TESTING

Every one of our Separators must undergo a rigid test before leaving the factory. No mac is boxed for shipment until everything is inspected, adjusted, and running perfectly. Many ough and exhaustive tests for actual everyday skimming and wearing qualities have been given Cream Separators by experienced farmers, professional dairymen and college officials, which p its very close skimming and mechanical excellence. When you receive it, it is set up, ready for With each Separator we ship a book of complete, simple directions, also list of parts. We include brushes, wrench, can of oil and oil can.

**SKIMS TO A TRACE — EASY TO OPERATE — AUTOMATIC OILI**
**SIMPLICITY OF DESIGN — EASY TO CLEAN**

**THE BOWL** is the most important part of the separator, as the entire separation takes p within it. The bowl does all the work for which the separator is built. Our New Improved Bo a wonderfully close skimmer, due to special patented points of construction which many disc bowls do not possess. This bowl skims to the last trace, because all the discs skim equall discs are overfed, and, therefore, there is no loss of cream. **THE DISCS** are so made that cannot be put on the cleaner in the wrong way, nor back into the bowl from the cleaner in wrong order. The discs slip easily off the holder onto the cleaner, and, after washing, back the holder, which then is handled as one piece ready to slip into the bowl. There are fewer to clean as compared with many other disc bowls of equal capacity. **HEIGHT OF MACHINE** floor to top is 37 ins.; to top of supply tank 35 ins. **CENTRE OF CRANK** is 33 ins. from the flo a most convenient height for operating. This will appeal to the housewife as being a most impo feature. The height permits a natural and easy position while turning the crank. **CORRECT BE GEAR**—This is made to meet the strictest requirements of simplicity, power, smooth and running. **ADJUSTABLE BEARINGS** make it easy to keep the bearings in smooth, normal contac as to reduce the friction to almost nothing. **NO SQUARE CORNERS**—The top and bottom of tank are rounded. There are no corners for catching and retaining milk particles, dirt or for matter. **STEEL BOWL**—Pressed out of one solid piece of steel, with rounded corners, heavily ned. It is the best type of bowl used to-day. Made scientifically accurate, its action is perfec the time. **SIMPLE, EFFECTIVE NECK BEARING**—This assures the accuracy of the operatio the skimming bowl. **EASY RUNNING**—The easy running feature of a separator is important, will be agreeably surprised when you run this machine. It is so well balanced and light-run that the weight of the extended handle is sufficient to spin the empty skimming bowl. The bearings with which the separator is fitted give this advantage. That is the reason why we fitted both the driving gear and spindle with ball-bearings.

## FEW AND SIMPLE PARTS

Their features are exceptionally close and thoroughly clean skimming, easy and smooth turning, strong construction, quick cleaning, and the highest quality and finish throughout. They have a patented cleaning rod, whereby in an easy and simple way the discs are removed, washed and again assembled in the bowl. The discs come together and fit anywhere without being numbered. The new patented neck bearing is a special feature which assures steady and almost noiseless running. The bowl is self-balancing, and cannot get out of order. Every valuable improvement that has stood the test of service is embodied in these machines. They are finished in a rich blue. All gears are enclosed. Tinware is seamless. The oiling is arranged for at a few handy points. The accurately cut gears reduce friction, and make the separator very light running. All parts of the mechanism are made from smooth, wear-resisting metals, which means long life to the machine. All separators are shipped with accessories complete, such as oil can, separator oil, brushes, wrench, screw driver and book of instructions. **We can always supply parts to renew worn ones when required.** These we carry in stock at all times and at lowest prices.

# GASOLINE ENGINE PUMPING OUTFIT

**COMPLETE (Pump not included)**

**SOLD UNDER THE EATON GUARANTEE**

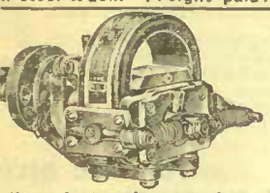
**49.50**

**Freight Paid to your Nearest Station**

This includes our 1¾ h.p. Engine, a Pump Jack with sub-base, and 16 feet of 2-inch Leather Belting. (Pump not included.) A very satisfactory power outfit. This pumping outfit cuts out the hard work, saves time, and pays for itself in a few months. When not using engine to pump you can hitch it to the cream separator, washing machine, churn or small feed grinder, and keep it working every day in the year. The pump shown in the illustration is not included. We ship outfit complete as stated above, and ready to attach to your pump. Equipped with batteries. See below for Pump Jack details.

**71-130. Freight paid. Price..... 49.50**

**If wanted with Magneto instead of Batteries, add $10.00 to price. Should be driven 150 to 200 revolutions per minute.**



# A SIMPLE MAGNETO

We are equipping our engines with the simplest and most reliable **Magneto** we can procure. Engines start right off easily with this magneto. No batteries are needed. The Webster Oscillating Magneto is driven by push rod instead of gears, and is independent of engine speed, and does not spark during the idle strokes of the engine. With this magneto you need no **batteries, no wiring, no switches, no coils.** There is nothing complicated about the magneto. It is absolutely guaranteed to give satisfaction. It is built to last as long as the engine, and is easily attached to any of our engines already in service. If you have an **EATON** engine, use one of these magnetos with it. You can attach it yourself easily, and the prices below are for magneto when bought separate from engine.

**71-10A. For 1¾ h.p. 14.00** | **71-11B. For 2¾ h.p. 15.00** | **71-12C. For 4½ h.p. 15.00** | **71-13D. For 6 h.p. 17.50** | **71-14E. For 8 h.p. 17.50** | **71-15F. For 12 h.p. 17.50**

**State size of engine when ordering. All freight paid. Simple and clear instructions are sent with each magneto. See prices of engines complete with magneto equipment quoted with each style of engine.**

# FACTS ABOUT EATON ENGINES

**COOLING SYSTEM**—Our engine cylinders are cooled by the water jacket and hopper system. This is the perfect type of water-cooling. The engine is always kept at proper temperature, and under all climatic conditions the water-cooled engine will do the business. The matter of freezing can easily be overcome by using common black lubricating oil in the place of water, or by using sal ammoniac, or by draining the water off from the cylinder by means of the drain cock. The small amount of water used does not make a task to drain the water off when engine is not in use.

**THE CYLINDER HEAD** is also water-jacketed. This produces a perfect circulation of water all around the cylinder. The cylinder head has a projection half an inch high that fits into the end of the cylinder, making it impossible for the packing to blow out.

**THE CRANK SHAFT** is drop-forged from a solid billet of high carbon steel. Turned and ground to absolute trueness. Heavy check piece and wide wrist pin bearing.

**THE GENERATOR**—We use the simplest form of generator made. Automatic suction feed, doing away with troublesome pumps and mechanical feeds of all kinds. The gasoline supply is regulated by the throttle valve, and gasoline and air are automatically mixed in proper proportions.

**THE CONNECTING ROD** is of the "I" beam type, of proper weight and length, with wide babbitted bearing on crank shaft end. Piston wrist bearing bushed with brass bushing.

**THE IGNITER**—Our engines are equipped with the make and break type of ignition, which has proven superior to any other for this style of gasoline engines. It insures a strong spark, and does not get out of adjustment. Our igniter can be depended upon for hard service every day.

**THE EATON GUARANTEE IS BACK OF EVERY ENGINE**

The working parts are few and simple. The instruction book we send with each engine enables any man to at once run his engine and understand it. Each engine is shipped on skids ready to run, equipped with batteries, spark coil, sight feed oil cup, compression grease cups, starting crank, oil can, oil and wrench. There are no extras to buy with your engine. We supply everything but the gasoline. Fill your gasoline tank and start up. Every engine, at its normal speed, will develop the full horse-power at which it is rated. They are built to stand the hardest service. **We shall be pleased to supply any special information you may wish about engine and power accessories, and help you to decide upon the proper equipment for your requirements.**

**OUR ENGINES ARE LOW-PRICED. NOTE BELOW WHAT OUR ENGINES WILL DO**

**Our 1¾ horse-power Engine** will run cream separator, pump water, run washing machine, small grist mill, corn sheller, grind-stone, etc.

**Our 2¾ horse-power Engine** can be used for heavier pumping conditions, running light machinery, such as small grinders, pulpers, etc.

**Our 4½ horse-power Engine** is a most popular size for all-round ordinary farm work. It will run grinders, shredders, light ensilage cutters, and handle a 26-inch saw. On a line shaft it will run several small machines at once.

**Our 6 horse-power Engine** will run almost any machine used on a farm, except threshers, and heavy grinders or blower heads.

**Our 8 and 12 horse-power Engines** are for heavy work. They are powerful, and run smoothly, and are used for silo filling, heavy sawing, large grinding mills, etc.

**THE NEW KEROSENE OR COAL OIL BURNER**

For those that wish to burn kerosene or coal oil (which is the same thing) in their engines we have a burner that has been tested and tried, and has proven to be a great success. So constructed that the kerosene is heated to a vapor before it enters the carburetor. This permits it to explode immediately the spark is applied. We supply a tank with two compartments—one for kerosene, the other for gasoline. Start your engine with gasoline, and in a few minutes close your gasoline valve and open the kerosene, and engine will go without a hitch. Burner is suitable for all engines except the 1¾ horse-power. Attached at factory to engines. Not fitted for attaching separately. For kerosene burner add extra to price of engine as follows:

**For 2¾ h.p. 9.75 4½ h.p. 11.00 6 h.p. 13.50 8 h.p. 14.75 12 h.p. 16.50**

**QUICK SHIPMENT:** We can ship Engines promptly, as we keep a large stock in our Toronto warehouse. We suggest that you allow reasonable time for the railroad to carry your engine to you at your distance, and would advise placing your order in good time. All our engines are sold under the **EATON** guarantee.
